Start time: 08:00 End time: 12:00

We would like to involve as many of our students as possible in the Erasmus projects, but for it, it is necessary that they become familiar with the program. We want to achieve it through two activities. On the one hand, with a set of knowledge-acquiring tasks based on modern technology (QR code), and on the other hand, with the experience report supported by the presentation of the students who have participated in the mobilities that have already been implemented.
